Employment

Catherine's employment practice covers the full spectrum of employment issues, with a particular focus on claims involving allegations of discrimination and whistleblowing. She is primarily instructed on behalf of respondents.

She is currently on the Attorney-General's Regional A Panel of Junior Counsel, and she has particular experience of cases involving the public sector, having been instructed on behalf of government departments, local authorities, NHS Trusts and trade unions.

Catherine's complementary personal injury practice means that she is well placed to advise in high value discrimination cases involving claims for personal injury and requiring the instruction of medical experts.

She also has experience of employment related commercial cases in the High Court involving allegations of breach of confidence, breach of fiduciary duty and restrictive covenants.

Catherine has a well-earned reputation for her organisation, her teamwork, and her ability to merge sensitivity with strength when instructed.
